## About the Author

- Born in Malaysia, in 1964.
- Graduated with a Bachelor of Science in Civil Engineering from the University of Tennessee, Knoxville, USA in 1988.
- Appointed by the University of Tennessee's International Student Association as a Psychological Counselor in 1989.
- Obtained his Masters of Science in Civil Engineering and Environmental Science in 1990 from the same university.
- Worked as an Environmentalist at Law Associates, the environmental firm in Atlanta, USA in 1990. Obtained his Professional Civil Engineer Licence in 1998.
- Published English books "The Purple Star System" in 1999, "Chinese Astrology: The Scientific Ways in 2000, "Chinese Astrology: Advanced Scientific Way" in 2002, and Chinese book "Ziwei Xingtai Shuxue" in 2003.
- Was invited to present "Ziwei Xingtai Shuxue" which literally means the morphological and mathematical ways of Zi Wei Dou Shu (in Mandarin) in the World Yi Jing Convention 2001 held in Singapore.
- Was honored by Professor Wang Hui, the President of Yi Jing (I-Ching) Research Center, Nanjing, China in 2002 for his contributions in promoting Chinese wisdoms to the western world.
- Started teaching "Ziwei Xingtai Shuxue" in Malaysia in 2003.
- Published book "Correlativity – The Secret Code of Life" in 2006.
- Was honored by naturopathic physician Professor Dr Daniel Chan, the winner of Albert Schweitzer Prize for Medicine from The Open International University for Complementary Medicines, Colombo, Sri Lanka in 2006 for his dissertation about the discovering and founded the Science of Correlativity.
- Was invited to present his "Correlativity: The New Branch of Zi Wei Dou Shu" (in English) in the 6th International Feng Shui Convention 2009 held in Singapore.
- Started teaching Correlativity Theory in Singapore in 2009.
- Was invited to present his "Correlativity Way of Zi Wei Dou Shu" (in Cantonese) in the 1st Hong Kong International Feng Shui Exhibition 2010.
- Published Chinese book "Correlativity – The Basic and Advanced Theory" in 2013.

## **Preface**

The renowned scientist, Stephen W. Hawking in his book, *A Brief History of Time*, states “we already know the laws that govern the behavior of matter under all but the most extreme conditions. In particular, we know the basic laws that underlie all of chemistry and biology. Yet we have certainly not reduced these subjects to the status of solved problems; we have, as yet, had little success in predicting human behavior from mathematical equation!” Even though, the behavioral sciences have been developed during the 20th century but we have not yet reached the unification of the human behavioral sciences. Today, however, with the Theory of Correlativity (the word is derived from Correlation, the reason we could study how human behave is because of the existence of four fundamental forces (or interactions) namely Strong Nuclear Force, Electromagnetic Force, Gravitational Force, and Weak Nuclear Force), I succeeded in applying mathematical equation into human behavior study – a subject which I had spent twenty five years researching and studying.

Correlativity comprises the laws and concepts of Cosmology, Geography, Anthropology, Sociology, Psychology, Newton’s Gravitational Law, Einstein’s Relativity, Heisenberg’s Uncertainty Principle, Watson-Crick’s Double Helical DNA, Yi Jing (I-Ching), Ba Zi, and Zi Wei Dou Shu. Correlativity is a brand new human behavioral theory that is based on ancient discoveries and modern sciences. Correlativity theory can identify human characteristics as well as can sequence human behavior, or simply called Human Behavioral Sequencing. Human Behavioral Sequencing enables a person to display different messages based on his/her previous actions taken as well as determine the messages displayed in subsequent exposures. Human Behavioral Sequencing is divided into two categories, Macroview Human Behavioral Sequencing (or in short Macroview Sequencing) and Microview Human Behavioral Sequencing (or in short Microview Sequencing). Applications of Correlativity involve Strategic Planning, Psychological Counseling, Predictive Diagnostics, etc.
